## EFFECTIVE FEBRUARY 10

### *Mountain Village Cable Channel Additions and Realignment*

*As a Mountain Village cable subscriber, you now have more options than ever before with over 30 new channels to chose from: seven basic channels, seven digital channels, and 17 high definition channels. With this upgrade, we have also realigned the stations so they make more sense. All the news channels are grouped together. If you want to watch sports, no need to jump around, just scroll from channel 34 to 41. MTV was on channel 30. It's new home is channel 60.*

*If you're not a cable subscriber, contact the Mountain Village Cable Department at (970) 369-0555 or visit [www.townofmountainvillage.com/cable](http://www.townofmountainvillage.com/cable) for a complete list of channels and rates.*
